Trying to set up affordable WiFi in a rural area
2020/05/21

Hi, I'm trying to set up WiFi in a rural area and I've using 3G/4G is probably my best bet since there's no accessible phone line. I need multiple people to be able to use it so I know a simple dongle won't do and I definitely can't afford satellite broadband at the moment. I have a TP-Link AC2600 wireless dual band gigabit router that I hoped to put to use to save some money but I'm having trouble finding a modem that will take a SIM card. It's probably down to my limited knowledge but any advice on how I might get best set up would be really appreciated. H

mobile phone jammer Grand Rapids
