Replacement for Verizon Router - [Solved]

2020/09/05

Hey guys, I am currently using the Verizon G1100 router they gave me when they installed the network. I want a new router but am not sure what to get. My place is about 770 sq ft and only have my phone on the wifi as the pc and Apple TV are hard wired. I constantly have drops in wifi speed and also am tired of this thing. I am wondering what would be a good replacement. Did some research and came up with the Asus RT-AC68U and the 86U. Any recommendations?
