250W Waterproof Wireless Software Controlled Cell Phone Jammer

2020/09/04

Product Details **Product Description** The product that you are viewing is the Waterproof Wireless Software Controlled Cell Phone Jammer, which is developed specially for prisons and other large, sensitive facilities, such as military installations and government compounds. And as applying high technology this jamming system can be controlled remotely with activation and deactivation of the system is carried out only by using a Wireless Control Unit by Computer. And apart from the above characteristic, this jammer device is constructed inside a special metal enclosure, incorporating an efficient "smart active" cooling system with incoming air filters, which enables the system to operate 24 hours a day and 7 days a week continuously even in hot weather. And the secure design ensures that the prison inmates and unauthorized prison personnel cannot tamper with the safe and continuous operation of the system. If you are looking for one just come here and pick up one. We will of course offer you the high quality jammer at the best price. **Features:** High power Waterproof design With a extreme hard metal enclosure Shielding range can be regulated by the computer remotely Alarming system design in case of equipment abnormal problem and people's sabotage, showed as below: The computer makes an alarming sound and e-mail notification to the administrator a) RF line is artificially cut b) Equipment doors exception open c) Modules damaged. Easy outdoor installation and remote controlled operation Any computer with COM port can be available for the program software. It can be controlled in real time including RF output power and separate module as well as all the jammer's working status. Specially designed shockproof ,Waterproof and RF shielded internal metal enclosure Smart active cooling system enables unlimited continuous operation in very hot temperatures with fans design. Module design based on high power RF amplifiers with VSWR and temperature self-protection technology. At a Glance: Each unit can jam up to five frequency bands simultaneously. Continuous operation, even in hot climates, with no time limit. Secure design to avoid sabotage. (VSWR) circuit
