Belkin USB n600 Connection Problem 2020/09/01

Hi,So as the title says I'm having trouble trying to get my belkin usb n600 wifi adapter to connect. When I look at the status of the device it says it's working properly. It appears to be connecting to the wifi, but for some reason it's saying it's not connected to my computer, even though it's plugged in. I've tried uninstalling and reinstalling the drivers, but that didn't work. It appears the usb is working fine as the lights are on. Does anyone have any idea on what might be the problem?
